

## **Weekly Report (11-15<sup>th</sup> June 2007)**

After the beginning of HydroAsia our Team started the communication and exchanged the personal information by email. Our Team has four members, two from Incheon University and two from Tropical Marine Science Institute, Singapore. The first online meeting of our Team took place on 12<sup>th</sup> June 2007 and we started our team work. All the team members were present and we had a good communication starting. During the meeting we discussed on each task in the project and work organization and further decided to split the tasks as follows:

1. GIS -making bathymetry
2. MOUSE -valid and calibrate
3. MOUSE+MIKE21- coupling
4. MIKE animator – to make report

Based on the above discussion we decided to divide the team in four groups as:

1. GIS
2. MOUSE
3. Write daily and weekly report
4. Maintain our Team website and keep on updating

The team decided to have next meeting on Wednesday, 20th June 2007.
