

## Summary of the 5<sup>th</sup> Weekly Meeting

Date/Time : 28th July 2009 / 18: 00 Korea time

Media : MSN Messenger Group Talking

Attendance : All members except for Naniz,Kyung Hoon and Takuya

The topics for this meeting is the following:

- Review the last week job
- Talk about the next week job

### 1. Review the last week job

Chris explained that last week we begin to want in the software and prepare the software for inputting the network, manhole and the catchment by Victor.

### 2. Talk about the next week job

Chris proposed to begin the simulation in the model. The jobs have a some problems, so Victor suggested us to ask our team tutor. Chris had to write email to prof.Gye Woon Choi. The job for the next week is the following :

1. We need to find the equation and compute in Excel .Also, we create some hygrograms.
2. Begin the modeling ,the input the data that we need to create the model.
